

ORANGE

This interesting 101 ha (250 Acres) farm is only about half an hour from Orange in Central NSW. It has a creek, 2 bores and a spring fed dam. Scattered shade trees have been retained in most paddocks. Power is connected to an old shed and there is a machinery shed, some yards and a grain silo. A sensibly priced property with good soils, nice building sites & loads of potential and it is situated in a low traffic area where privacy can become a reality.

Type : Rural
Price : \$ 385,000
